

Subject: OCOF Workshop Follow-up - Presentations, Contact List, Evaluation, and Data Request

Reply-To: Kelley.Higgason@noaa.gov

Dear OCOF Coastal Manager Scoping Workshop Attendees:

We would first of all would like to thank you for the time and valuable input you contributed to the OCOF Workshops on August 23rd and 25th. We had a great group of participants at both workshops, and the productive discussions will greatly contribute to an online decision support tool for sea level rise and storm hazards along the North-central California coast tailored to local information needs.

The workshop presentations and participant surveys are now available online at: www.prbo.org/ocof. Click on the Coastal Manager Scoping Workshops "Read More" link in the upper left hand corner box. A contact list with the participants from both workshops is also attached here.

In order to best coordinate workshops of this type in the future, we would appreciate your feedback on the workshop you attended, and ask if you can take about 5-10 minutes to fill out a brief evaluation at: <http://www.surveymonkey.com/s/RPGF5G2>. Please provide your input by Wednesday, September 21st.

Lastly, we have two additional questions/areas of follow up from the workshops:

1) Would you be interested in participating in a focus group in 2012 to provide feedback on the beta version of the tool? If yes, please email kelley.higgason@noaa.gov to sign up.

2) We would appreciate any data layers you may be able to provide for this project, and perceive important to the online tool. If you do have any data to share, please email kelley.higgason@noaa.gov with what type of data layers, and any additional information you can provide on accessing the data.

As mentioned at the workshop, we will be synthesizing the notes taken throughout each day into a Workshop Summary Report and anticipate this to be available by late September/early October. We will send out an announcement and post the report on the OCOF website once it is completed.

Again, thank you all for your participation, and we look forward to continuing to collaborate with you on this project.

Sincerely,

The OCOF Team
