Journal of the Association of Watershed & Stormwater Professionals

## Photolog Contest

The Association of Watershed and Stormwater Professionals (AWSPs), a program of the Center for Watershed Protection, is sponsoring a photolog contest to feature on our website and our journal, the *Watershed Science Bulletin*.

The photolog contest is a way for us to feature the watersheds in which we work, live, and play. This will be a semiannual solicitation process for members and non-members.

The photos can feature any number of subjects including:

- Streams, forests, or other natural features
  - Stormwater BMPs
  - Restoration projects
- Anything that captures the essence of the watersheds

To submit your photolog, provide one original, digital photograph with a **250-word description** (subject to editing) to [photocontest@cwsp.org](mailto:photocontest@cwsp.org).

The resolution of the photo must be **300 dpi minimum**, must be in jpg, .tif, or .psd format, and **cannot exceed 5MB**. The description can be submitted within the email, in Word, or as a .pdf or .txt format and cannot exceed 250 words.

Each applicant must also submit a completed application form (see next page) in .pdf format or fax the form to: 410.461.8324.

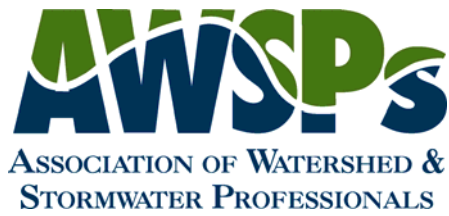

By submitting a photolog to the contest, the submitter authorizes the use of the photograph and the description for its purposes and also authorizes that the photo is an original taken by them without alterations and grants full permission to the Center to utilize both the photograph and the description without limitations. The Center is also authorized to make edits on any descriptions.

**All photologs must be submitted by April 9, 2010 by 5pm.**

Winners will be notified by May 31, 2010 by email. Winning photographs and descriptions will be displayed on the [www.awsp.org](http://www.awsp.org) website for a limited time and will also appear in the Fall 2010 edition of the *Watershed Science Bulletin*.

Judging will be conducted by a panel appointed by the Center for Watershed Protection, Inc. and will be based on originality, photo quality, description quality, etc.

Center for Watershed Protection, Inc. employees and affiliates are not permitted to submit.
